

Period.

Araceli Aronin, Elisa Castro, Juliet Stansbury

Objective

Objective:

- Educate and provide clinical information
- Provide links and resources to helplines and contact with other services such as Planned Parenthood
- Create a neutral, safe, and non-gendered specific environment
- Track and predict menstruation
- Send notifications to users about upcoming periods
- Free and accessible downloads with no in-app purchases

Rules & Restrictions:

- Time constriction of six months
- Building the app on a program called *FlutterFlow* with no prior knowledge or skills of this program
- Work distribution amongst three people with help from mentors

Our Device is able to provide:

- Clinical information approved by reliable sources
- Link and resources to other trusted services
- A gender neutral environment
- Free downloads for iOS and Android devices
